

## AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

### Listing of Claims:

---

Claims 1-7 (canceled).

8. (Previously Presented) The car radio according to claim 13, wherein:  
the first axis of the labeling is rotated 45 degrees in relation to the direction of the longitudinal axis of the handset.
9. (Previously Presented) The car radio according to claim 13, wherein:  
the control keys include labeled elongated keys oriented perpendicular to the first axis of the labeling.
10. (Previously Presented) The car radio according to claim 13, wherein:  
a direction of a display on the screen is capable of being changed in order to adjust the screen to one of the plurality of operating positions.
11. (Previously Presented) The car radio according to claim 10, wherein:  
the handset includes a position sensor for changing the display on the screen.
12. (Previously Presented) The car radio according to claim 13, wherein:  
the handset includes a remote control unit for the car radio.
13. (Previously Presented) A car radio, comprising:  
a front panel including a horizontally positioned holder, the front panel including a radio circuit for receiving a broadcast radio program;  
a detachable handset capable of functioning as one of a control unit for a car radio and a telephone, the handset being inserted into the horizontally positioned holder in the front panel of the car radio and providing a control signal to the radio circuit;  
a screen; and  
control keys provided with a labeling oriented along a first axis that is rotated out of a usual vertical alignment of the handset in a mounted position by an angle between 30 and 60 degrees in a direction of a longitudinal axis of the handset in order to render the labeling easy to read in each one of a plurality of operating positions of the handset,

wherein the front panel includes at least one further control key for controlling the car radio, the at least one further control key being positioned adjacent to the horizontally positioned holder.

14. (Previously Presented) The car radio according to claim 13, wherein:  
the handset includes at least one soft key for selecting stored radio stations, the at least one soft key being positioned adjacent to the screen.

15. (Canceled).

16. (New) The car radio according to claim 14, wherein the stored radio stations are reproduced on the screen adjacent to the at least one soft key.
